NATURAL LIFE-CHANGING SOLUTIONS

THERMOBUTYRATE™

THERMOBUTYRATE™ is a brand-new patent pending exogenous signaling technology, backed by research. We've formulated a day and night capsule. Fat Melter! It works like the old ECA stack without the risks.

HERE'S HOW IT WORKS:

THERMO BUTYRATE™ pushes the body to make ketones (induces ketogenesis) from YOUR OWN FAT (endogenous) it is primarily a Brown Adipose Tissue (BAT) Fat activator; inducing uncoupling protein activity to activate that fat burning furnace we all have idling within us. It also activates Hormone Sensitive Lipase (HSL) in adipose fat tissue setting in motion the breakdown of diglycerides and triglycerides (formed fat) in white adipose fat tissue (WAT) and mobilizing (releasing) them into the bloodstream for BAT fuel use ... which literally burns fat to generate HEAT as opposed to needing the body to work (exercise) the fat calories off.

THERMOBUTYRATE™

DAY FORMULA

The **DAY** Formula is a power punch to mobilize fat from adipose fat stores; activate thermogenic fat burning; and induce ketogenesis to heighten brain fuel in times when you might be in dietary scarcity (low caloric intake).

This ketone allows the brain the fuel it needs to stay happy and OUT OF hunger mode while you work through the day in control of diet and cravings burning fat as a primary energy source. Feel your brain light up with energy and creativity.

MOBILIZE
FAT STORES

ACTIVATE
FAT BURNING

INDUCE
KETOGENESIS

HEIGHTEN
BRAIN FUEL

CONTROL APPETITE &
CRAVINGS

NIGHT FORMULA

Take the added fat burning push at night in the form of the **NIGHT** Formula to continue the BAT activity at night and feel the heat accumulate as you sleep. That heat is your body fat leaving you in the form of heat energy. Fat calorie energy converted to heat energy without physical work! The added bonus is you get a sound restful sleep.

CONTINUE
BAT ACTIVITY

FEEL THE HEAT
AS YOU SLEEP

CONVERT FAT
TO HEAT ENERGY

SUPPORTS
RESTFUL SLEEP

THERMOBUTYRATE™

SAMPLE FORMULATIONS:

Supplement Facts

Serving Size: 1-3 Capsules

Amount per 1 capsules

Unlimited Energy Complex (Chlorogenic-Butyrate complex*)	325 mg
---	--------

Focus Support Blend (Green Tea Caffeine, Guarana, L-Theanine, Ginko Biloba)	81 mg
--	-------

Other Ingredients: Vegetable Capsule (Hydroxypropyl methycellulose, water), magnesium stearate, silicon dioxide

* Patent Pending Technology

NOTE: 40mg of caffeine per capsule

Have us formulate your own customised version of this fat burner using Thermobutyrate as a driving ingredient for results.

BIOLOGIC RESEARCH

Are you looking for new opportunities to expand your product line and stay ahead of the competition?

Look no further than Biologic Pharmamedical

As a leading research and development company, Biologic specializes in manufacturing consumer therapeutics and performance-enhancing products utilizing patented technologies from Cavaleri Health Inc. Our research services include drug and nutraceutical discovery research on proteomic and genomic targets, research and development of novel therapeutics and medicines, and management of a related portfolio of patented ingredients to manufacture finished therapies by contract.

With over 40 years of experience in the nutraceutical industry, Biologic is a reliable and committed partner in the natural health industry wedded to allopathic pharmaceutical research protocols to validate and optimise these natural therapies. Our ongoing pharmaceutical research using nutraceutical fractions in our laboratories on existing and new technologies continues to evolve and add data to the marketing message for each technology you commit to. We simply continue to add new value and refresh science for your brand to leverage on an ongoing basis.

Moreover, much of our research is published in the public medical sciences literature for scientific referencing by brands and other researchers, ensuring that your products have the scientific backing they need to stand out in the marketplace. Additionally, these novel research discoveries set the stage for patent status to protect your new inflection point in the chosen category.

Partner with Biologic Pharmamedical today and gain access to cutting-edge technologies with a trend-setting narrative supported by real science and an ongoing research program that will take your brand to the next level!

BIOLOGIC CUSTOM MANUFACTURING

Along with our natural patented technologies, we provide comprehensive custom manufacturing services through every stage of development, from R&D to marketing and sales:

Supply unique technical patented ingredients

Peer-reviewed published research for referencing

Research and custom formulation for your specific product and brand needs.

We procure other specialized ingredients and flavorings as needed.

Coordinate with our own manufacturing team.

Ensure stringent quality control throughout every phase.

Assistance with PNP and Health Canada requirements; and FDA compliance.

Detailed review of labeling and packaging specifications.

Cost breakdown estimation/pricing.

Assist with branding communications.

Live/video training sessions with our chief science formulator for your group.

Marketing planning, and ongoing fulfillment services.

Remote video training with marketing material support to ensure your brand's success.

At **Biologic Pharmamedical**, our goal is to help you position yourself as a product leader in the supplement industry. Contact us today to learn more about our custom manufacturing services and how we can help your brand deliver proven and optimal results to your customers.
